Dear Coroner

Amanda was in correspondence with Darrim independently, before she and I met for the first time. Somewhat belatedly I am forwarding to you this and other emails that I omitted to send to BTP at the appropriate time, because I had not at that time received them from Amanda. Amanda might not have realised their importance, because they were not recent at the time when Darrim was killed.

I knew that Darrim made the allegation of public sector bullying that makes me believe that he is entitled to an Article 2 inquest. That allegation is part of my evidence, as well as Amanda's. I have only recently learnt (or perhaps been reminded) that Darrim made the allegation in writing to Amanda over a year before his death, and before Amanda and I had met. I apologise for the lateness of this new evidence.

My family don't believe any of what i have told them has happened to me. I am a victim because they have stalked me and tortured and blackmailed me. 'They' are the security services in my belief - either MI5 or some black ops organisation. Do you know the reason why they are doing it to you ?

I am low because they have blackmailed me to stop me being with a girl I like. I have never been sectioned.

e/h - electronic harassment, or as you call it psychotronic weaponry. If you use this definition be careful as it means `healing` in Russian. Most say e/h

o/s - organised stalking, or multiple or cause stalking. It again has many names but in reality most people call it o/s

What is e/h and o/s ?
 My family don't believe me, but some of my friends do.

What is it they do not believe, what have you told them? So how have you worked out you are a victim? Who is/are `they`?

regards

Amanda
